

perfection. everyone in order. passing over the top. all is good

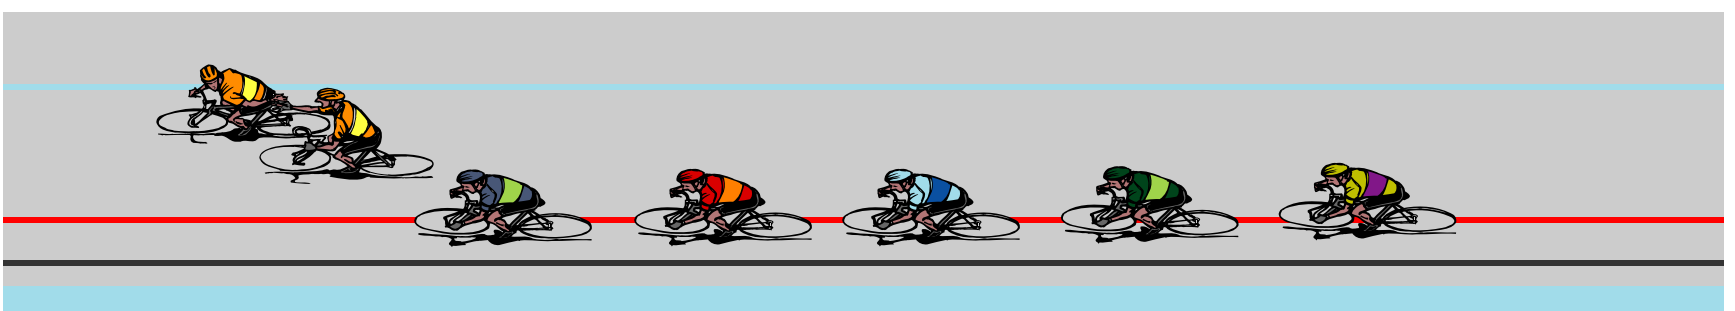

blue rider is bad. going under exchange. red and green are good going over top.

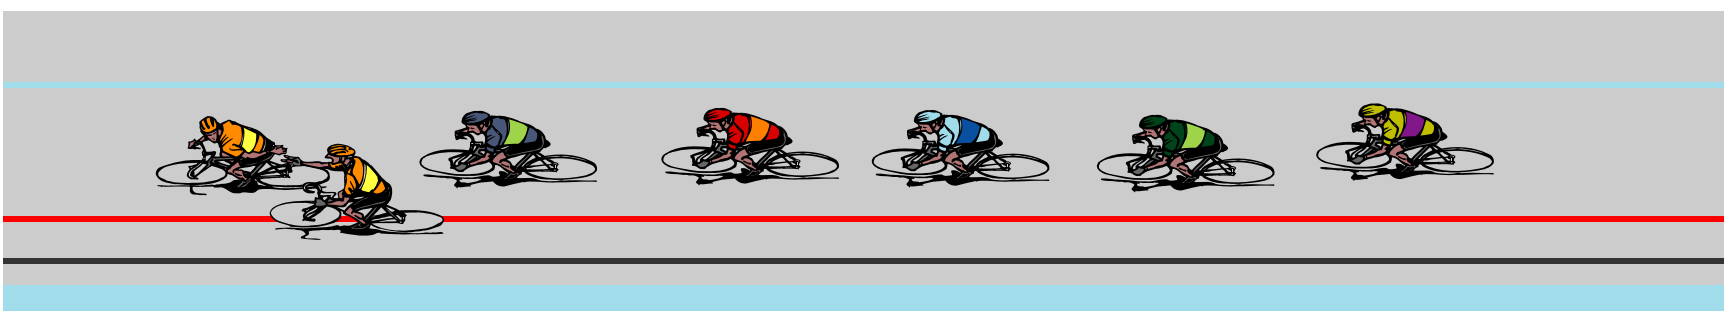

Big Problem. light blue is out of order screwing up reds exchange. red has to veer high to avoid crashing into grey

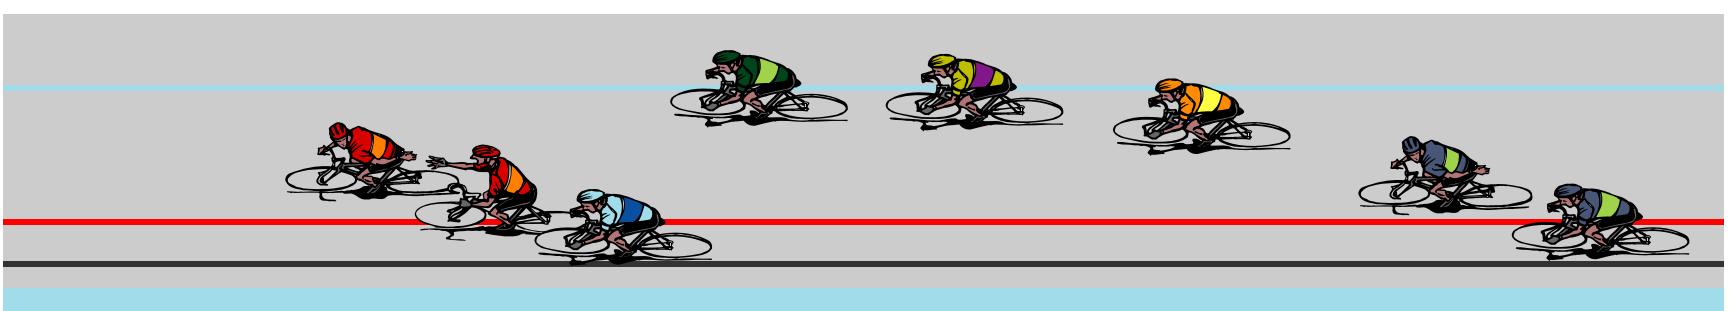

Big Problem. Red is exchanging high and is going to force blue to take evasive actions over the top

Big Big Problem. Orange is exchanging too high and grey has committed underneath. Carnage awaits

Much Better. Orange is exchanging too high but grey is bringing the group over the top

Not good. Blue is in trouble and may crash when red comes down. green is going up and over to save himself.
